

ANOTHER CREDIT TO PROHIBITION

Dave Walker Uses Mental Science on Dope Fiends—Only Seventy-two Prisoners.

Dept. Dave Walker, of the Hamilton county workhouse, in speaking of the condition of the workhouse camps said that everything was about good shape as could be expected considering the extreme cold weather. He said that there were now confined in the White Oak camp, the only workhouse camp being used, only seventy-two prisoners, and that this was an extremely low number of men and was due, of course, to the rigid enforcing of the prohibition laws in Hamilton county. "This is the smallest number we have ever had," stated Mr. Walker "with the exception of a month or so ago, when we had only sixty-six, the lowest we have had since I have been in office."

The one thing the superintendent prides himself on is his solution of the dope question, and which he claims has worked like a charm, and as a result so far he has entirely cured one negro woman, one white woman and two white men of the drug habit. He stated that when the unfortunate began to crave the drug he merely talks with them awhile and then gives them something to do as to keep their minds occupied. "It is another case," said the superintendent, "of an ill mind being the devil's own workshop and when I put these people to work and keep them busy they absolutely forget about the drug that has caused their downfall and in four or five months begin to eat heartily and become absolutely cured." One of the white men cured was released a few days ago, and told Mr. Walker that he was the happiest man in the world and was going home to his wife and children and tell them he had won out in his struggle over the deadly habit. He was a young man and was in the very first stages of the habit, but it was said that despite that fact, he had gone far enough with it to believe he could not quit and had given up all life and hope. One negro woman cured was an old-timer and when she was kept at work all the time she said she never wanted the drug.

Mr. Walker said that the drug and whisky habit was only caused by idleness, and it was only a mistake that those who had first started the use of drugs had to have them as a stimulant. "It is my opinion," said the superintendent, "that a lot of the drug habit is caused by the giving of drugs for medicinal purposes to so many of them to alleviate what they term a

Unions May Boycott Car Company Tonight

The Central Labor union meets tonight, when the referendum of the various locals will be reported which will determine the central body's stand on the street carmen's strike here. The individual unions have voted on the resolution presented at the last meeting of the central body, which provides that a sympathetic boycott be instituted against the Chattanooga Railway and Light company. The resolution provides for the limitation of the use of electric lights, the riding of street cars and bars the patronage of any of the company's commodities or services. If adopted, it will mean that all labor union men in the city, together with what sympathizers they may be able to enlist, will declare a complete boycott against the company that still refuses to deal with the carmen's union. Though little is given out on the possibilities, it is understood that the carpenters' union has already voted in favor of the resolution and that other unions have taken a similar attitude.

The annual election of officers of the central body will also be held tonight. F. T. Carter, editor of the Labor World, and C. L. Lindsey, a prominent member of the carpenters' local, are the two candidates for the chief executive office. So far as can be learned, no politics or factionalism is entering into the election, the votes to express the unbiased feelings of the members in support of the man the individuals believe best suited for the office.

craving for it. Cut them off and of course they will suffer for a while, but they will in the long run be alright. I never have seen a drug fiend yet that would not quit if he had some help in quitting. They are all anxious to quit. I never allow dope or whisky to be given any of my prisoners."

Mr. Walker stated that he was keeping all his prisoners in doors now as the weather was entirely too bad to make them get out and work. He said that while the weather had not been so bad overhead, it had been too bad underfoot. As soon as the weather moderates the forces will be put to chopping wood.

MAJ. GARDNER REPORTED DYING AT CAMP WHEELER

Macon, Ga., Jan. 14.—Maj. A. P. Gardner, former congressman from Massachusetts, who resigned when war was declared to enter the army, is in a dying condition at Camp Wheeler today from pneumonia.

WATER SUPPLY SHORT AT CAMP

Famine Faced Men Who Depended on Civic Center Restaurant.

Grim famine faced the officers and civilians who depended upon the Greek restaurant at the civic center for their Sunday supper. No fighting man can subsist on starch and carbohydrates, but bread, syrup and candied apples, which the restaurant had to offer its numerous patrons when the hour arrived for the evening meal. The suffering is said to have been intense.

Not only were the caterers eaten out of house and home, but in addition to this the water supply had been cut off and there was no water with which to wash the dishes. All of the canned goods, crackers and candies were disappeared and many a poor soldier's supplies were supposed to be. It was a sad story. To add to the horrors of the scene, the fuel supply was exhausted, the fires were out and the cooks retired.

In the army camp kitchen and mess halls a reserve supply of water had been provided before the waterworks went out of commission, and an abundance of fuel and food had been provided. The cold had little effect on the soldiers who depended upon the prescribed sources of supplies. Fuel was plentiful and the water was turned on again at 10 o'clock Sunday night.

All of the troops in Chickamauga park recently have been paid. The last units to face the paymaster for the month were attended to during the past week. This accounts, in a measure, for the food shortage at the civic center restaurant. The soldier loves to browse in other fields when he has money, and will eat anything that is not classed as ration food.

If the Broadway stars under the direction of the war department's commission are to include the theater at civic center in the circuit now being arranged, Gen. E. W. Winfield's headquarters has not yet been advised of the fact. Representatives of the commission have visited the sixteen national army camps and have arranged for the sale of smiley books, but the movement has not yet been extended to the regulation army camps—not that they know of. The attractions do not begin to appear, according to the present program, until after Feb. 1, and there is yet time to change the schedule so that Chickamauga park regulars may have the same privilege of seeing these extraordinary attractions that are to be enjoyed by the national army men.

Sunshine Hawks has completed his first week of lectures at Y. M. C. A. buildings within the park and is beginning on his second week. Dr. Winfield's headquarters has arranged for a lecture in the use of the bayonet with a structure in which he impressed upon the student officers the importance of the bayonet in modern warfare and the necessity of cultivating the fighting spirit. Capt. Billings began the course of instruction in the use of the bayonet with a textbook on bayonet fighting which will soon be off the press.

U. S. HEALTH EXPERTS TO INSPECT CITY

Soldiers To Be Barred From Barber Shops and Restaurants If Not Sanitary.

Dr. C. P. Knight, officer in charge of the United States public health service office here, received a communication Monday morning informing him that three special sanitary inspectors were on their way here from New Orleans for the purpose of making a most thorough investigation of the hotels and restaurants in Chattanooga.

At present the health officials are conducting a health examination, (for the purpose of issuing health certificates) of all employees of barber shops. After the examination has been finished, a notice will be placed in each barber shop that have been approved and soldiers will only be permitted to patronize such places. A similar examination and sanitary investigation will be made of the restaurants and hotels, and notices will be placed in those places after they have been passed on.

In referring to the \$25,000 which has been asked the city by the United States department of public health service, Commissioner H. D. Hufaker, of the city health department, stated that for the next two weeks, at least, he will not present the matter before the commissioners, but will give it more time and consideration.

POST IMPRESSIONS

The number of officers and candidates in Chattanooga Saturday night and Sunday included practically all who were not engaged in military duties that prevented them from leaving their camps. The recent order of Gen. Erwin prohibiting officers and enlisted men from wearing the becoming tarrison cap and limiting the use of

Yes! Everybody Takes Cascarets

Only 10 cents! Harmless cathartic for sluggish liver and bowels

Feel badly! Cheer up! Take Cascarets to live your liver and clean the bowels and stop headaches, biliousness, bad breath, coated tongue, sourness, sour stomach and gas. Tonight take Cascarets and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand—Everybody's doing it. Cascarets best laxative for children. They gladly take this pleasant candy cathartic because it never grips or sickens like other things.—(Adv.)

MANY APPEAL TO DISTRICT BOARD

Registrants Turned Down at Mobilization Camps for Physical Disability Go in Class 5.

Appeals to the district boards are taking up most of the time of the local boards. Following the classification notices that are sent out each day there is generally a rush to make appeal. Up until noon Monday board No. 2 had received requests for twelve appeals. A notation is promptly made of these appeals and they are sent on to the district boards as soon as is convenient.

Many of those classified in class 1 cannot understand that the local boards cannot rule on physical disabilities. In several instances blind men have been put in class 1. Less and armless men have also been put in this class. Persons exempted on account of physical disabilities during the first draft are also placed in class 1 if there is no good claim for another classification.

Notice has been received by the local boards that persons who were sent to camp during the first draft and later sent home on account of physical disabilities should be placed in class 5, but those exempted before going to camp are being placed in the first class. Before the notice was received from camp were placed in class 1. Tuesday morning the district board will meet in Knoxville. H. C. Adler, of Chattanooga, is chairman of the board. Arrangements will be made by the board to care for all appeals and see that they are properly investigated. On account of the lack of information sent out in some of the questionnaires some cases have not been made clear and the classification has been unjust for that reason. The district board will go to the bottom of the appeals and see that they are properly classified.

Those who appealed at board No. 2 Monday morning were as follows: Hugh Hone, Arthur Long, Tom Baldwin, William Clyde Turner, Clyde Alvis Daugherty, James Robert Brake (Industrial), Cicero Anthony, Benjamin Newton Whitten, Lawrence Smith and George W. Reynolds. Fred John Krause was assigned to No. 3322 Monday morning by Gov. Rye. Krause registered at Naomi, Ark. His papers having been lost in a shipwreck. After coming to Chattanooga, the registrant notified Atty.-Gen. Whitaker that his papers had been lost and permission was obtained to register him again, which was done on Jan. 10.

An alien who had taken out his first papers called at board No. 2 Monday morning to see in which class he had been placed. He was told that owing to the fact that he was not yet a citizen of the United States he had been put in to await naturalization.

Slowly the returned questionnaires are reaching their owners. Persons who have not received these papers are becoming aware of the fact that something must be wrong and are hunting them out. The questionnaires are generally found when they are called for. Many of these papers are thought to have been lost and mislaid by mail clerks and deliverymen. Within the next two weeks the boards are hopeful that the situation will be cleared.

Cicero Anthony filed an appeal with his local board Monday morning when he learned that he had been placed in

YOUNG SOLDIER GETS \$3,000 DAMAGES

Suit of George W. Reynolds Against Trigg-Dobbs Company Compromised.

The suit of George W. Reynolds by next friend, George D. Lancaster, against the Trigg-Dobbs company for \$10,000 damages for personal injuries was compromised Monday morning for \$3,000. The compromise verdict was agreed to by George D. Lancaster, counsel for the plaintiff, and Strang & Fletcher, counsel for the defendant, and was approved by Judge Nathan L. Bachman, who ordered a compromise verdict to be entered in the case. The suit was the result of a large truck, the property of the Trigg-Dobbs company, striking a buggy in which Reynolds was riding.

According to the declaration in the suit, Reynolds was a soldier in Battery C, Virginia field artillery, and two other young men were riding along what is known as the McFarland road near Fort Oglethorpe in a buggy. They claim that they were on the right-hand side of the road and were about to pass them. After the automobile had passed they continued their journey and went back on the right hand side of the road; the defendant's truck, driven by a negro and loaded with several negroes, came speeding along at a high rate and striking the buggy, turned it over and dragged the plaintiff about ten feet, finally stopping with the wheels of the truck on plain-bee's heels. The plaintiff claims that he received a fractured hip and a sprained wrist that he was internally injured and was in the hospital for the following five weeks after the accident. He said that he has suffered great mental anguish and physical pain. The accident occurred Aug. 15, 1917.

NEW MACHINERY COMPANY APPLIES FOR CHARTER

The Southern Machine company filed application in the county clerk's office Monday morning for a charter to do a general machinery business. The new organization is capitalized at \$200,000. The incorporators are W. A. Sudd, Charles A. Lyerly, Morrow Chamberlain, H. M. Loftin and Frank Spauldick.

The charter states that the new concern is organized for the purpose of manufacturing machinery consisting of iron, steel, brass and other metals, carrying on such a business incident to manufacturing of metallic articles and dealing in articles they manufacture.

CHARTER GRANTED BY SECRETARY OF STATE

Nashville, Jan. 14.—Secretary of State L. B. Stevens has issued a charter to the National Jewelry company, of Nashville, with a capital of \$20,000, the incorporators are: R. B. Sanders, J. M. Gilliam, J. J. Sanders, H. E. Sanders and William Hume.

BANKRUPTCY PETITION FILED BY CAMPBELL

To cover his personal liabilities, William L. Campbell, of the contracting firm of Chandler & Campbell, Saturday filed a petition in bankruptcy in the United States district court. The petition covers liabilities of the contracting firm amounting to approximately \$75,000. A schedule of personal liabilities will not exceed \$5,000. No assets are listed. The insolvency of the firm is said to have resulted from a half-million dollar contract in Savannah, Ga., on which the company lost heavily because of an advance in labor and material.

A firm is indebted to the Hamilton National bank in the sum of \$22,000; the First National bank, \$5,000; the Chattanooga Savings bank, \$5,000; the Southern Surety company, \$4,000; the Bank of Savannah, \$5,000, and liable for unliquidated amounts of \$50,000 to the Fidelity and Deposit company, of Maryland. All these amounts will be paid in full, same being covered by sureties.

MANY AUTOMOBILE WRECKS LINE CHICKAMAUGA ROAD

Automobile traffic between Chattanooga and Chickamauga park was opened Sunday, though the condition of the road made travel by that route dangerous. A number of cars were ditched, among them being a heavy truck loaded with fruit. The wreckage was reaping a harvest, picking up damaged autos in the neighborhood of the double S which Monday afternoon continued to present a surface glazed with ice.

NOTED PRISONER NERVOUS WRECK

Baroness Zollner Much Depressed by Confinement. Will Go to Knoxville.

Sheriff Nick P. Bush stated Monday morning that he would leave Tuesday night for Knoxville, where he goes to take Baroness Zollner, who is charged with espionage, is held in the Hamilton county jail without bond. Her attorney first filed a writ of habeas corpus in an effort to have her given an early hearing and the trial on this petition was set for Jan. 22. However, her attorney charges now that the baroness' health is fast becoming impaired on account of her confinement, and returning here he drew up a petition for bail, which calls for an immediate hearing, and this was also granted by Judge Sanford and the hearing set for Wednesday, Jan. 16.

District Attorney General W. T. Kennerly fought bitterly both petitions filed by Attorney Abernathy, but the fact that it was apparent that the health of the baroness was becoming greatly impaired and her mind was becoming greatly perturbed and might become seriously so prompted Judge Sanford to order an immediate hearing. On the petition for bail Judge Sanford ordered the baroness brought immediately before him, but the district attorney said that he could not get ready, and then it was that the judge fixed the trial for Wednesday.

According to the famous prisoner's counsel, who is the only one allowed to see her, the prisoner is in a fearful condition both in mind and body and appears continually downcast and depressed as the result of her confinement. "The only thing that keeps her alive," said the attorney, "is her hope that Judge Sanford, after hearing all the evidence, will dismiss the unjust charges against her."

CAN'T FIND DANDRUFF

Every bit of dandruff disappears after one or two applications of Dandine rubbed well into the scalp with the finger tips. Get a small bottle of Dandine at any drug store for a few cents and save your hair. After several applications, you can't find a particle of dandruff or any itching hair, and the scalp will never itch.—(Adv.)
